Nice Shelkit

For sectional doors up to 8.4 m² and up-and-over doors up to 9.8 m² with guide in single section of 2850 mm.
Gear motor characteristics:
- **Quick installation in every location** thanks to the click-fit guide.
- **Automatic programming** by means of a single key
- **Auto-diagnostic system** that identifies and immediately signals any possible malfunctions
- **Safe and reliable:** 24 Vdc very low voltage motor with electronic limit switch; obstacle detection thanks to controlled movement.
- **Silent operation:** optimised chain drive
- **Practical release rope** in the event of a power failure

- **Incorporated control unit with built-in receiver;** a wide range of programmable functions:
- 1 speed.
- Timed and adjustable automatic closing function.
- Partial opening function.
- Setting of pause time and movement speed.
- Setting of obstacle detection sensitivity with movement inversion.
- Traction discharge at end of manoeuvre, to guarantee perfect door closure.
- Automatic recognition of NC-NA-8.2K safety devices, if installed.
- Programming of new transmitters (up to 150 programmable keys).

Recommended purchase quantity: 100 pcs.
